SCRAP ORATORICAL DREADNAUGHTS, IS WILL'S PEACE IDEA

(Special To The News)
HOLLYWOOD, Cal., Nov. 12.—The day that I am writing this is no doubt the greatest day in all the world history, Armistice Day, when you think that a half dozen men could sit down and casually sign a pact to stop millions of men from killing each other. But if they don't stop these guys making these speeches over the radio on Armistice Day, why are we liable to have the same war over again, only worse.

If Armistice Day had stopped speeches it would have done more good than to have stopped war, for speeches is what starts the next war.

It's not armament, it's oratory that's wrong with this country.

Yours,
WILL ROGERS.

PA NEW OBSERVES

Youngstown high schools are making arrangements to play night football next season. Success of the venture in New Castle this fall, has attracted widespread attention, and it is probable that within a year or so, it will be quite general.

And talking of night football—Westminster college squad will practice some nights this week under the lights at Franklin Field, in order to become accustomed to the night game. Westminster meets Duquesne on Friday night at Forbes Field, Pittsburgh, in their initial night encounter.

Fog of the past week or so has been of an unusual kind. It apparently travels in streaks. Auto drivers have been having difficulty in night driving in many sections of the county.

That new road between New Castle and Walpole, now in complete use, is a sample of what all important and main travelled highways will be like within the next quarter century, Pa New would predict. If any one had suggested, twenty years ago, that such a highway would be in use at New Castle's outskirts it would have been regarded as a wild dreamer. But even greater progress in road building will be made during the next quarter century, it is plainly evident.

Many New Castle residents heard President Hoover's Armistice address over the radio last night.

Holiday shopping will soon have a clear track all the way to December 25. New Castle stores are already for the biggest business in their history. With the ever increasing number of good roads converging here, the shopping radius for New Castle is growing larger and larger, each year.

Apparently there is one fellow who doesn't believe in letting a little thing like an auto smash keep him from using the car. A sedan was noted on North Mercer street this morning with the top tipped off. The driver was nonchalantly driving down the street.

Hunters who were out on Armistice day in pursuit of bunnies report that the game seemed to have declared an armistice, or early hunters have cleaned up on the game supply hereabouts.

Traffic accident reports indicate that there is another danger spot that will provide a problem for regulation—Croton avenue and the new North street bridge. Several minor accidents have already occurred there. The bridge entrance comes out abruptly into the line of traffic on Croton avenue.

Believe it or not, Pa New saw a rabbit on Washington street, this morning. That is strange, but listen to this. The rabbit did not run, but walked, down Croton avenue. It stopped occasionally and casually looked around. Yep, believe it or not.

Daily Weather Report

Weather statistics for the 24-hour period ending at 9 o'clock this morning are as follows:
Maximum temperature, 57.
Minimum temperature, 31.
No precipitation.

Redouble Search For Train Thugs

Coast Police Seeking Pair Of

Train

ONLY \$300 TAKEN
FROM PASSENGERS

(International News Service)
LOS ANGELES, Cal., Nov. 12.—Spurred on by a \$10,000 reward, authorities today were making an intensive search for the two bandits who wrecked a Southern Pacific train near Saugus Sunday night and robbed passengers of approximately \$300.

The locomotive and three coaches of the train turned over when it left the rails which had been loosened by the robbers. Badly scalded by escaping steam, R. C. Ball, the engineer, today was reported to have a good chance of recovering from his injuries. He was the only one seriously hurt by the derailment.

Release Suspects
Nine suspects were placed under arrest, but subsequently released. The hunt for the bandits was centered at Los Angeles. The pair of desperadoes, believed to be members of an organized train robbers gang, are thought to have fled here in an automobile after staging the spectacular but unremunerative holdup.

A coat found near the scene of robbery, according to officers, has furnished the most tangible clue to the identity of the bandits. Passengers have identified the garment as one worn by one of the bandits. A coatless man was observed jumping into an automobile near the scene of the wreck. He was reported to have driven away in the direction of this city. Hopes that fingerprints might be found on the tools used to loosen the rails were blasted today when it was discovered that the bandits must have worn gloves while so engaged.

Under California laws the penalty for train wrecking, regardless of whether lives were lost, is death.

New Yorkers Seek To Ban Noises

NEW YORK, Nov. 12.—The honk of an automobile horn may be sweet music to a flapper sitting at home with nothing to do, but to New York's citizenry auto horns are just another noise.

For today found automobile horns leading the noise abatement commission's poll of objectionable noises. Trailing closely, in the order named, were unmuffled motors, noisy brakes, motor trucks and the sirens of fire apparatus.

Motive For Girl's Suicide In Leap From Airplane Baffling To Investigators

Notes Left Behind In Plane Indicate She Planned Leap To

Death—First Suicide Of Kind In World's History.

(International News Service)
VALLEY STREAM, N. Y., Nov. 12.—Only one of the many questions asked by Ruth Rockwell, 18-year-old Philadelphia girl, in a note left in the cabin of an airplane from which she leaped to her death near here was answered today.

That one was: "I am wondering if the newspapers will decide to devote any space to me?"

Sensational Suicide
All of the other problems which beset the pretty, darkhaired girl and drove her to sensational suicide remained, for the rest of the world at least, unanswered. She wondered what

she would think of as she whirled to death through space, whether she would find anything in death, and if so whether it would be "sweet music" she sought when all her life was discord.

Inquiries among relatives of the girl, daughter of D. W. Rockwell, Philadelphia business man, failed to elicit any reason for her act save that she had always had a morbid curiosity regarding suicide.

They discussed the subject of an investigation today.

FIND WELL PAID HEAD OF MANUFACTURING CO. MAN IN BANK HOLD-UP

(International News Service)
CHICAGO, Nov. 12.—William S. Ragan, well paid superintendent of a manufacturing company, lies in a hospital today suffering with two bullet wounds after having admitted that he was the man who tried to hold up the State bank at Fisher, Ill., his home town.

Armed with a revolver, the bandit entered the bank last Friday. His attempted coup was interrupted when City Marshal C. R. Potts passed the building. Potts saw the bandit's gun and opened fire, hitting him twice in the thigh.

The robber fled in his automobile but later was traced to the hospital.

Police, checking up his history, found that Ragan was exceptionally successful as a well paid executive of the Linde Air Products company. According to police, he led a Jekyll-Hyde existence, choosing his old home town as the scene for a crime career.

Ragan's wife was taken back to Fisher following evidence which tended to show that she aided her husband in making a survey of the bank.

NEW YORK, Nov. 12.—The trial of George McManus, charged with the murder of Arnold Rothstein, nationally known gambling king, was postponed today until next Monday. Assistant District Attorney George M. Brothers, announced shortly after court opened that Alvin Thomas, better known to the gambling fraternity as "Titanic" Thompson, was seriously ill in a Milwaukee hospital. "Titanic" is one of the state's principal witnesses.

Brothers said that the state's case would be jeopardized without the availability of Thomas.

Lawyers for both sides went into conference in the chambers of Judge Charles C. Nott of general sessions. When they emerged Judge Nott said trial was postponed until next Monday because counsel on opposing sides had agreed on the delay.

Judge Nott said defendant's counsel, James D. C. Murray, had recognized the state would not have all its forces and had graciously agreed to the adjournment.

FOG CAUSES ACCIDENT
Ralph Carbone of 604 McCleary avenue, reported Tuesday morning that he was enroute east on East Washington street as a produce truck was stopped at the fruit stand at the west end of bridge over the Neshaunock creek. Because of the fog, which made it hard to see, the hub of one of his wheels caught in the wheel of the truck and considerable damage was done to both.

Leaders Seeking To Heal Breach In Tariff Fight

Western Agriculturists Line-

WASHINGTON, Nov. 12.—The economic war fever, now splitting the Republican party into opposing factions of western agriculturists and eastern industrialists, remained unabated today but with administration leaders seeking desperately to heal the breach.

Talk of the westerners bolting the party in 1932 to form a third party move against President Hoover's reelection provoked administration concern. With the tariff bill conceded to be the cause of war, there were very definite hints that the president himself would move before long to stem the war talk and mollify the opposing factions.

Hoover to Take Hand
The president, it was vaguely intimated, could act as soon as the tariff bill is passed by the Senate and sent to conference. Then, it was said, it would be deemed proper for him to speak his mind about the extent of tariff revision, and particularly on the question of whether he will accept a bill, containing the debenture plan of farm relief—urged by the westerners—and devoid of the flexible tariff clause which easterners demand. It was gently hinted that when proper times comes, the president will say he can sign such a bill, providing new industries are given adequate relief.

Such a statement, even if the east greets it with poor grace, would tend to solve the tariff problem. It certainly would smooth the way to a reunion of all factions of the Republican party.

It likewise would bring such bold insurgents as Senator William E. Borah (R) of Idaho, and Senator George W. Norris (R) of Nebraska, back into the party fold.

Economic Grounds
The warfare meanwhile was based solely on economic grounds. The opposing viewpoints were given to International News Service by spokes-

General Butler Undecided Upon Being Candidate

Tells American Legion At Philadelphia He Doesn't Know
How To Regard Job

(International News Service)
PHILADELPHIA, Nov. 12.—General Smedley D. Butler, the fiery marine general from West Chester, would like to be governor of Pennsylvania. He made these admissions to an audience at an armistice day celebration of an American legion post here last night.

"If I can help the soldiers and help keep the United States out of war, I wouldn't mind being governor of the state," Butler said.

"Who wouldn't like to be governor of his state, especially when his state is Pennsylvania?" he asked. After the resultant din aroused by his words he continued. "But even supposing I could be elected, I'm not so sure I would the job."

The general explained he would like to go up to Harrisburg and help the soldiers of the state but he wouldn't want to do "some fool thing" which would make him lose the many friends he now has everywhere in the state. And then too he has a "good job" now he admitted and he isn't so sure that being governor would make him a better man than he is.

CAMDEN, N. J., Nov. 12.—Despite an all-night grilling, Gladys Mae Parks, the "Iron Woman," today refused to admit she was a baby murderer.

The junoesque, auburn-haired, former model and piano player continued to insist she "accidentally" beat four-year-old Dorothy Rogers to death and that two-year-old Timothy, the child's brother, died from falling downstairs.

At one point in the intensive cross-examination, detectives thought they had broken through the ice of the woman.

"There was another baby I had charge of in 1926—a three-year-old baby," she shouted.

"Confesses Blackmail"
"What did you do with it? What did you do with it?" What did you do with it? "I used that baby to get money from men," she answered.

"What did you do with it? What did you do with it?"

But the "Iron Woman" regained the old grip on herself and would go no further.

Detective Sergeant Louis Shaw said today that an investigation had brought him information that Miss Parks had a small child in Atlantic City two years ago. She used the child for purposes of blackmail, Shaw said.

Shakedown Racket
Prosecutor Clifford Baldwin today will question Miss Parks as to whether four-year-old Billy Gaffney, who disappeared in 1927 from his Brooklyn home, had ever been used in her blackmail schemes. Two New York detectives were on their way to as-

Drag Pittsburgh Lake For Woman Believed Slain

(International News Service)
PITTSBURGH, Nov. 12.—Police early today started dragging Silver Lake along Washington boulevard following reports of residents of that vicinity that woman had been heard to scream and that as the screams grew fainter a man was seen to emerge from the shadows seemingly carrying articles of wearing apparel thrown over his arm. The man climbed into a waiting automobile, the reports said, and drove away.

There's a tinkling in the hallway like the rattle of some shells, there's a hissing and a ringing that is like the sound of bells, its a pleasant sound and cheerful, with a harmony that's sweet, it's the evidence the janitor has given us some heat. No more days and nights of chilling with the flat a dreary spot, no more cussing at the landlord till a chilly lad gets hot, no more calling on the telephone, or talking on the street, with the lad who does the firing, he's turned on the heat. Let the radiators sizzle, let the steam valves bubble on, for we hope they keep on working till the snow and frost is gone, let the coal bin keep depleting, what it does for us is great, for the heat is on, for winter, and the weather's forty-eight.

Armistice Day Program Given At Bessemer

Booster's Club Of Boro In
Charge Of Program Mon-
day Night

Commemorating the signing of the armistice, the Boosters club of Bessemer held an interesting program Monday evening in the high school, with nearly 200 present.

Booster Montgomery, chairman of the club, was in charge of the evening's program and under his direction an interesting evening was presented.

The Boy Scouts of Bessemer opened the evening with a flag raising and oath to the flag and special music was presented by the Bessemer high school orchestra. Miss Mary Smith, a teacher in the school sang several special numbers accompanied by Mrs. Alfred Heard.

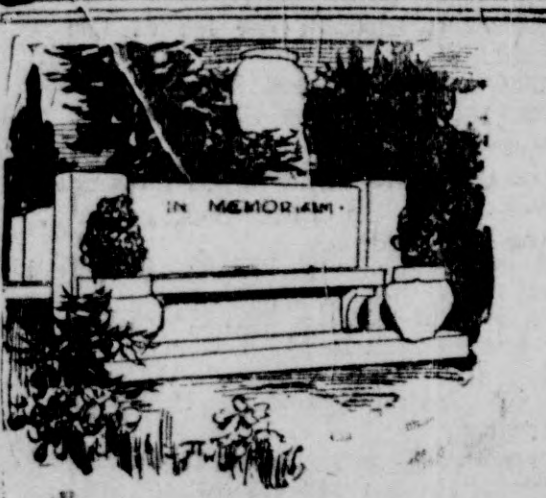

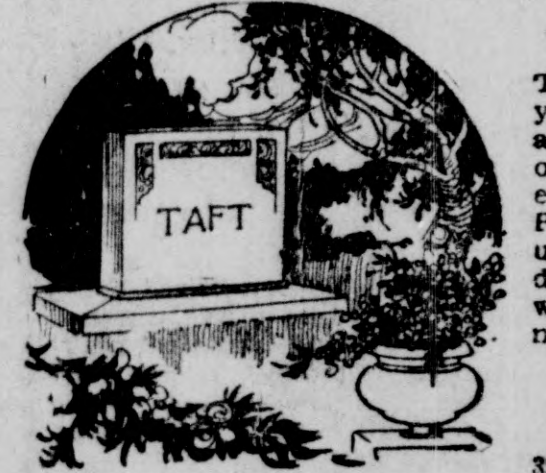

The speakers of the evening were Rev. W. J. Engles, C. W. Herman Hess and Bart Richards. Mr. Montgomery added to the speaking program with a poem written by Harry Lauder.

Organized only last February the Boosters club has advanced rapidly. It has a large membership and has sponsored a number of things for the boro. The program was arranged Monday evening by Prof. H. J. Colito, chairman of the Entertainment Committee. Lunch and a two reel comedy concluded the evening.

PRESIDENT HOOVER EXPRESSES POLICY ON NAVY REDUCING

(Continued From Page One)

marine, so snake-like and deadly in its war time usage.

Probably neither of these proposals can be accepted in its entirety by the London conference, for Britain places a certain reliance on the capital ship in the protection of its far-flung trade routes and dominions, and France places an enormous reliance on the submarine as "the poor man's defense" against the superior surface strength of other powers.

Seek Reduction

But President Hoover made it clear in his Armistice Day address last night that so far as the United States is concerned, his administration is willing to consider favorably and all propositions that point to proportionate naval reduction.

"And," he said, simply, "it cannot be too low for us."

The plain inference left by Mr. Hoover was that if the naval rivalry of Europe can be reconciled to the point of sacrificing submarines and

capital ships, this government would willingly go along.

By proportionate naval reduction, Mr. Hoover obviously meant the maintenance of the general ratio laid down by the Washington conference eight years ago, which was parity as between Great Britain and the United States in all classes of ships, and lesser ratios for Japan, France and Italy according to their needs. The figures were 5 each for Great Britain and the United States, 3 for Japan, and 1.6 for the rival Mediterranean powers of France and Italy.

Throws Out Challenge

It was with this basis in mind that the president so boldly and so positively threw out the challenge that naval reduction cannot go too low for the United States.

It remains now to be seen how far Franco-British and Anglo-Japanese, and Franco-Italian differences and suspicions can be allayed, and how far they will be willing to go. Mr. Hoover's speech doesn't leave much to be said for the American attitude. Collaterally with the pronouncement of American naval policy, President Hoover made a proposal which he said he wanted the world to ponder and consider.

Freedom for Food Ships

It was simply that in the event of another war, food ships be put in the same class as hospital ships and immunized from attack.

"The time has come," he said, "when we should remove starvation of women and children from the weapons of warfare."

Mr. Hoover spoke with deep conviction on this point, conviction born of his war time experiences in trying to feed the helpless civilian populations of Europe with German submarines sinking food ships destined for the allied countries, and British cruisers seizing food ships ticketed for the neutral Scandinavian countries but really destined for Germany.

During the late war, the allies tried to starve out Germany through the maintenance of a naval blockade, and Germany tried to starve out England through the ruthless submarine campaign against merchant shipping. Even hospital ships were not immune in this savage warfare.

Is Only Suggestion

This matter of making foodships immune from attack together with the broader question of "freedom of the seas" has been the subject of the question of naval reduction. Britain's excuse for a large naval establishment has always been that England cannot feed herself, that she is dependent upon shipping for her very bread, and for that reason a large navy is vital to the life of the empire.

Remove that element of doubt, Mr. Hoover thinks, and there is automatically removed Britain's chief reason for "controlling the seas."

"I have not made this a governmental proposition to any nation and do not do so now," said the president. "I offer it only for the consideration of the world."

"I know that any wide departure from accepted ideas requires long and searching examination. No idea can be perfected except on the anvil of debate. This is not a proposition for the forthcoming naval conference, as that session is for a definite purpose, and this proposal will not be injected into it."

He concluded, "The world must wait a while later recognize this dependence of food on sea-strength as one of the underlying causes of its armed situation. But, far and beyond this, of course, starvation should be rejected among the weapons of warfare."

LEADERS SEEKING TO HEAL BREACH IN TARIFF FIGHT

(Continued From Page One)

men for the two factions. They follow:

Old guard view:—Western insurgents are seeking to destroy protection for eastern industries while increasing protection for western agriculture—so the east, while getting less for its products, will have to pay more for its food. This movement is a recurrence of the periodic upheavals that convulse the middle west from time to time with such unrelenting economic views as were professed by the Greenbackers, the Populists and the Bryanists. Because of a necessary concentration of wealth in the industrial east, the western insurgents are swayed by the prejudice and blinded to the country's welfare. To successfully solve the problem, the west must realize the population of eastern industrial cities provides the best cash market for farm products.

and any injury to industry is an injury to agriculture.

Insurgent view:—The farmer has been selling his products in a world market while buying in a highly protected American market. The prices on three-fourths of America's farm production are fixed in Europe. The west must maintain its home markets, not only in the east but it must protect its markets abroad, since the prices of most farm products are fixed by the world market in Europe.

Disasters Results

If a high tariff wall places an embargo against foreign imports, the buying power of Europe will be reduced, with disastrous results to the world market prices and a consequent reduction of income to American farmers. The west must be given adequate tariff protection but the east must not place an embargo against European products. The west is ready to accept tariff rates, equalling the difference in cost of production at home and abroad where American manufacturers can supply the American market. It must refuse to support tariff rates which inflate prices, bar out European products and destroy competition merely so American manufacturers may be handed home markets on a silver platter. The west is ready to arbitrate the issue—a peace move that has been rejected by the east up to date.

The "Middle of the road" Republicans, who hope for peace, meanwhile discouraged talk of war. Their viewpoint was best demonstrated by Senator Jones (R.) Wash., acting Republican leader, who said: "I don't believe there is any party split. This controversy is merely a division of opinion over tariff rates and terms. When we get through with this bill, there will be differences of opinion on other measures, but there will not be any special or permanent division of the party."

death, has told his story to the authorities.

She came to Valley Stream yesterday afternoon, paid five dollars for a ticket and asked to be taken aloft as high as possible.

Booth thought she was looking for a thrill, and perhaps she was, for in the notes she left behind she said that life was "futile" and that it was wrong to go on existing.

"She seemed to be in perfectly good spirits, and I didn't suspect anything when she asked for altitude," said Booth after describing how the girl had begged her lips and adjusted her hat before entering the plane.

Body Is Crushed

"She asked me whether the doors locked from the inside, but I thought this was merely a novice's cautious question," he continued.

"When we reached 1,500 feet she tapped on my window and asked me to go higher. At 2,000 feet I felt a sudden rush of air, and looking around saw one of the doors swinging open. I could see the girl's body hurtling to the earth below."

Crushed by the terrific impact, the girl's body landed on a stretch of roadway near the flying field.

Miss Rockwell had been staying with her brother, Donald Rockwell, at his home in Yonkers. He said his sister had been born in Springfield, Ill., and was a granddaughter of the late Senator H. P. Shumway of that state.

Sherman A. Kirkbride of New Wilmington, who is pastor at large of the Shenango presbytery.

Dinner will be served at 5:30 and the evening service will begin at 7:30 at which time Rev. Percy E. Burt, D. D. will be the principal speaker; he is pastor of the First Presbyterian church of Sharon.

Sunday services will include Bible school at 10:00 a. m., with Holy Communion celebrated at 11:00; at 7:30 there will be a rally of the Young People's societies with an address delivered by Rev. William A. Lloyd, the present pastor of the church.

Organized in 1856

The Leesburg church was first organized in 1856 with 13 members and now the congregation numbers about 200.

The first church building was a frame structure which stood within the cemetery grounds but was later moved just across the road a little to the north.

In 1900 the congregation decided the frame building was not commodious enough for their needs and set about to build a new place of worship across

from the cemetery on the east side of the Perry Highway. This building was of brick veneer and was totally destroyed by fire on the night of September 21, 1928.

The new edifice, which is to be dedicated this week, is of mingled Castle Rock brick in the English style of architecture and is on the site of the church which burned. The W. G. Eekies Company of New Castle prepared the plans. The new building was put up at an approximate cost of \$25,000. There is a basement under the whole structure, with newly equipped modern kitchen and several class rooms for the Sabbath school department beside the main auditorium.

GRILLING FAILS TO SHAKE WOMAN HELD FOR MURDER

(Continued From Page One)

sist in running down the Gaffney retractor.

Detective Shaw said he believed the Parks woman had obtained more than \$50,000 in her "shakedown racket." He said her method was to make friends with men of means and then many months later bring them a child and accuse them of being its parent. "The men usually paid what she threatened to introduce the child to their families," he said. "She had been working this racket for the past ten or twelve years."

However, both Shaw and Prosecutor Baldwin admit they have been unable to get the "Iron Woman" to admit these activities.

Doing Clever Lying

"She has built up a clever tissue of lies designed to shield herself," said Baldwin. "She has confessed to nothing that is more damaging than her invention of manslaughter, but I believe she lies."

"I believe that this woman had but one love, one thought, one goal—that of gold."

"She put money above all else. She took babies from homes where the death of loving mothers left them without a woman's care."

Real "Gold Digger"

"This Parks woman trapped men and used the babies to extort her life's mania—gold," continued Prosecutor Baldwin.

"She could not use babies for such extortion after they had passed a tender age. We have signed statements from six men (from Philadelphia and Atlantic City) who paid tribute to her baby-baited trap. And none of the decoy babies answers the same description."

"She must account for the babies used in each of those six cases. She admits, in addition to the Rogers children, that she has had one other."

In Trouble Before

"Today over the scenes where Dorothy and little Timmie Rogers met their death, she may break and tell the whole story of her past years."

Camden and Newark police received a report from New York on a fingerprint record there showing that Miss Parks was arrested in Philadelphia on April 5, 1924, charged with shoplifting.

She was arrested then under the name of May Wiener, and was also known under the aliases of Gladys Wiener and May Baker.

members of the crew remained aboard the craft, however, when the storm slackened somewhat.

A steamer plying between Ostend and Dover was unable to enter the Harbor of Dover until 8:30 a. m. today because of the fury of the storm. The vessel was anchored in the channel throughout the night, which 72 storm-tossed passengers, including a number of Americans, fretted at the fifteen hour delay which resulted.

Most of the casualties occurred on the shore where hundreds huddled in the upper stories of their homes while the onrushing waters of the channel flooded cellars and threatened to sweep away many seaside dwellings.

Airship Outside Storm

Channel traffic was almost entirely paralyzed for about 24 hours. Air liners were forced to suspend operations. Calls for help were frequent.

The huge British R-101, buffeted about by an 83 mile an hour gale, successfully outdrew the storm from her mooring mast at Cardington.

The steamship Canterbury crashed into a pier while entering Dover Harbor, throwing passengers into momentary panic when the lights were suddenly extinguished by the shock.

A number of trains were derailed when floods washed out roadbeds.

Lions Will Honor District Governor

Regular weekly meeting of the Lions club was not held today due to the banquet which the club plans to have at the Elks club Wednesday night, honoring District Governor L. E. Perry of Altoona.

Dinner will be served tomorrow night at 6:30. A special program has been prepared.

STAR LORE

DID JOSHUA COMMAND THE SUN TO STAND STILL

By Arthur DeV. Carpenter.

O. D. M. Dalton, Pa.—Will you please explain Joshua 10:13—Joshua commanding the sun to stand still?

In the times when this Bible account was written, the human race believed the earth was flat and stationary, and that the sun moved around it daily, producing night and day. It was under such supposed conditions that Joshua is said to have spoken to the sun to stand still.

But Joshua spoke the wrong heavenly body. He should have said: Earth, cease to rotate! Some Hebrew students say that "stand still" should be translated, "be dark." The suggested translation is far more sensible. (More Tomorrow)

The NEW Universal Washer and Dryer

One Woman to Another—
"It dries without
a wringer"

..... that is one of the reasons why my New UNIVERSAL Washer and Dryer makes wash-day as pleasant as any other. No longer do I have to guide an endless line of wet clothes through clumsy wringer rolls or sew on missing buttons, the new dryer prevents all that. Then after all the clothes are cleaned, I turn a valve and the water in the washer tub is emptied electrically without my lifting a drop. What a lot of time, labor and worry I find it saves me!

New UNIVERSAL Features Invite Comparison!

Wringersless—A new three-minute dryer expels surplus water quicker and more evenly than a wringer and with complete safety both to clothes and operator.

Empties Itself Electrically—A small pump puts an end to all lifting of heavy water pails.

New Improved Safety-Agitator—The fastest and most thorough cleaning action known is at last made safe for the clothes.

through UNIVERSAL refinement of design.

Safe—All moving parts are enclosed. Dryer cannot start until cover is securely fastened. The New UNIVERSAL is perfectly safe in every respect for the operator and curious children.

Included gears are packed gears never wear out. All-metal construction throughout. Easy to operate, simple to care for and attractive in appearance.

ENDED COLD CAUSED BY RIDE IN NIGHT AIR

Relief Began Quickly When
Doctor Advised Home Use
of Pleasant Method

An entirely new method of ending colds is now proving itself quickest and most dependable in hundreds of New Castle homes.

Miss Eva Flinn, for example, caught a severe cold when she left her coat at home and the air became damp and chilly later in the evening. As a result, her breathing passages became badly congested, her throat was inflamed by constant coughing and her voice was so hoarse it was embarrassing to try to talk.

Acting on the advice of her doctor, then, she started taking double strength doses of Ayer's Cherry Pectoral. Relief began quickly and that night her nose passages were less congested, the "feverish," "achy" feeling was gone and she was able to sleep without coughing but once or twice during the night. Next day she was able to return to work and in another day or so, the doctor reports, an examination showed that all trace of the cold was gone.

Armistice Day Program At High

Attorney Walter W. Braham
Gives Interesting Armistice
Day Address
To Students

On Monday morning in the auditorium of the senior high school the 11th anniversary of the Armistice was observed with a special program. Attorney Walter Braham was the main speaker on the program. He gave an address on "A War to an End"—Has it Accomplished its Purpose?

Devotions were conducted by Rev. Samuel Maxwell pastor of the Epworth M. E. church and former chaplain during the war in the United States navy. Following devotions Attorney Braham was introduced to the student body of the school by William Margraf. Mr. Braham in his address gave a description of Armistice day 11 years ago.

He also made a few remarks on the present political standing in several of the countries. Following the speech the students stood silent for two minutes in remembrance of that 11 o'clock 11 years ago. The senior high school band under Prof. Joseph Repligle played several patriotic selections during the program.

Following is the program:
"Stars and Stripes Forever"—Senior High Band.

"America"—School.

Flag Salute—Led by Melvin Moorehouse.

Devotions—Rev. Samuel Maxwell.

Reading, "Flanders Field"—Miss Verlie Porter.

Selection, "American Patrol"—Senior High Band.

Address "A War to an End"—Attorney Walter W. Braham.

"The Star Spangled Banner"—School.

March—Senior High Band.

The faculty members who were in charge of arranging the program were H. A. McCracken chairman; R. L. Weide, William Margraf, N. P. Nelson, William L. Klee, T. S. Miller and Joseph Repligle.

Have Narrow Escape

In 75 Feet Plunge

FRANKLIN, Pa., Nov. 12.—Two sons of Mr. and Mrs. Carl Armstrong, Clintonville, miraculously escaped serious injury when their car plunged through a new guard rail and toppled 75 feet over the hillside near Emmenton. The car was completely demolished, uprooting several small trees on its way down to the ravine. The boys were thrown clear and were only slightly bruised.

This interests California, Oregon and Washington especially among our 48 states.

They would bear the brunt if war from Asia came, as the Atlantic states did in 1776.

They should say to their Uncle Sam and to California's son, Mr. Hoover, "Talk peace by all means," but give us plenty of airplanes and and submarines and we shall GUARANTEE peace.

Russia, seeking to force modern big scale farming methods on 125,000,000 peasants, is engaged in a struggle that, according to Walter Duranty, intelligent observer on the spot, may be more important to the world than the battle of Verdun.

Communism may safely interfere with the peasants' religious rights, but interfering with his land and farming methods is as dangerous as it would be here.

However, the more intelligent peasants begin to realize that there may possibly be methods better than theirs. Stalin has already provided 60,000 tractors, promises 250,000 of them within two years, and has Henry Ford's engineers at work now on huge plants.

Russia might even teach this wise nation.

Austria complains that Britain lacks confidence in her stability and credit and hopes "the Wall street crash will incline American finance to invest in Austrian bonds."

Americans like Austria and her people. But race and religious hatreds that cause Jewish students to be maltreated and driven from Austrian universities will not help Austrian bonds. Such hatreds existed in Russia before the czar's downfall. Russian bonds bought by childish Wall street men did not prove profitable.

P. H. C. MEETING

ON WEDNESDAY

Deferred business of importance will be brought before New Castle Circle No. 5. Protected Home Circle on Wednesday evening. Matters regarding the observance of the 27th anniversary of the Circle on Wednesday, November 27th ought to bring every member of No. 5 to the Circle chamber on this Wednesday night. The business session will be brief and at its close the social committee has arranged for one of their popular card party's.

Women Have Something to Say! AN ANCIENT PREJUDICE HAS BEEN REMOVED

AMERICAN INTELLIGENCE has ridiculed into oblivion that ancient prejudice which excluded women from a voice in council. Today, in millions of homes, the delicious flavor of LUCKY STRIKE fills the room as the family group respects the opinion of its women folk.

"toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

State Corporations Pay Over \$104,000,000 Income Tax To U. S. In Year

(Special To The News)
WASHINGTON, D. C., Nov. 12.—Pennsylvania corporations paid into the federal treasury last year income tax totaling \$104,134,847 on incomes earned during the prior year, according to a report just completed by the treasury department.

A total of 24,833 Pennsylvania corporations filed returns last year, 13,193, or 53.62 per cent of these deficits, and 2,360, or 9.49 per cent of the total advising the treasury department they had been inactive during the year.

The percentage of corporations in Pennsylvania earning profits ranked thirty-sixth of all the states in the country, although it was only slightly below the percentage of 54.70 for the corporations of the country as a whole.

The 13,193 Pennsylvania corporations earning profits reported a total net income of \$806,494,043 on which the federal government levied a tax of \$104,134,847. The 9,330 corporations of the State advising the treasury department that they had earned no profits reported total deficits of \$138,396,811, the report indicates.

JEWELS IN THE SUN

Stagg Beetle sat on a stone and mopped his face with his feelers. "Lucky for you, Mrs. Rose, that your husband and I hadn't started off on the hunt. Seems like an off morning for us, doesn't it, Rose? Boy, here, got hung on my horns in the first place, and then your wife upset things all over again. Oh, well, there's another day coming. All's well that ends well."

"The sun is not over-high yet," remarked Grass-Green, squinting up at the sky and almost rolling on his back to do so. "We can still have the hunt if you, Stagg, and Rose are not too tired. Why don't you two get your breaths and when you are ready the rest of us will be. We'll wait for you at the foot of the red rose bush."

"Suits me," said Stagg. "However if you folks don't mind, I'm going to see my wife safe home. See you later!"

The devoted husband helped Mrs. Rose Beetle to her feet and, claw in claw, off the couple started. The sun shone on their coats of gold, green and silver and made them gleam like two bright jewels. Peter watched until they were out of sight.

"Fine looking couple, aren't they?" asked Stagg, looking after them admiringly.

"That they are!" declared Grass-Green. "But there's one thing to be said for all the Beetle family—they know how to dress and to keep up appearances." Grass-Green glanced around at his own sleek green suit with a satisfied smile.

"You'd make good soldiers," said Stagg.

Peter, suddenly. The boy had been studying Stagg.

"Why do you say that?" drawled Grass-Green as he lazily snapped at a fly who buzzed too close to his head.

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

In the window of a South Side drug store yesterday was a real reminder of the day. A miniature grave had been put into the show window and at the head of it a card with these words, "Here lies in Eternal glory, an American soldier, known but to God." Just a reminder of the men the druggist had served with, some of whom never came back.

Ten interesting part of the display came after the window had been dressed. A traveling man went by and seeing the grave, stopped. In a few moments he walked into the store and addressing the proprietor said: "I also served. If you will allow me, I would be pleased to buy a wreath to put on that little grave, just for remembrance."

Bessemer, the home of brick and cement, celebrated Armistice Day last night with a community party in the high school. The meeting was sponsored by the Boosters' club of the borough.

These evenings are splendid practice for the lad who likes to drive in a fog, if any. The valley down along the Mahoning river turns out some of the best fog you ever saw and trying to drive through it is an experience. The fog banks were heavy last night white and fleecy and enveloping and nobody made any record time from the top of the hill over into the Seventh ward.

Mary had a little lamb which is probably no news to you. According to the old poem it had a snow white fleece and followed Mary everywhere she went, including school. Mary has gotten a lot of advertising out of that little lamb but there is a boy up on the East Side who has a dog that bids fair to rival Mary's little lamb.

If it was started in the same poetic meter the first line would be "Lewis had a little dog." The Lewis in this case is little Lewis Keyser who attends the Oak street kindergarten in the basement of the Reformed Presbyterian church.

The dog is of indifferent breed, one of these dogs that seems to have a dash of this and a dash of that but mostly he is a collie. Just the kind of a dog any boy can love. The dog has no pedigree to worry over no book of genealogy, and thus can spend most of his time caring for his young master.

Every morning when Lewis goes to school the dog follows him. Cold or warm, wet or dry the dog is at his heels seeing that nothing harms him. Once arrived at the church the dog doesn't quit. He tries his best to get into the school room but failing to do that stands out side and waits.

As the youngsters troop out of the building after class, Lewis' dog is there as faithful as a family coachman and half a dozen youngsters are in his train.

Mary may have had a little lamb but up in the Oak street district Lewis Keyser's little dog has the edge in popularity.

Grundy Scores Senators For Tariff Views

Joseph R. Grundy Renews Hostilities On Tariff Blockers From Down South

EXPLAINS VIEWS TO COMMITTEE

(International News Service) WASHINGTON, Nov. 12.—Joseph R. Grundy, the high priest of tariff protection, who shocked the senate lobby committee recently by declaring that southern and western senators should "talk damn small" in tariff legislation, renewed hostilities today by firing another salvo of criticism at those who are voting daily to decrease the rates of the Hawley-Smoot bill.

"Uncle Joe" submitted a bill of particulars to support his contention that the states which send Democrats and insurgent Republicans to the senate are "backward states," and in defense of his theory that the large industrial states like Pennsylvania should be permitted a free hand in framing tariff legislation.

In a letter filed with the committee, Grundy singled out six southern states to illustrate his arguments that the senators should "talk damn small" in comparison with the talking done by the representatives of the populous and rich industrial states of the east.

He took the figures of the 1926 senatorial elections and showed that only 4.83 per cent of Alabama's population participated in the voting; only 1.89 per cent of Arkansas, 1.64 per cent of Georgia, 1.50 per cent of Mississippi, 0.87 per cent of South Carolina and 4.67 per cent of Virginia.

Against these figures, he cited the fact that Pennsylvania, with her 3,720,000 people cast 1,504,696 votes, or 17 per cent of the populace.

States Backward. Upon this record of voting, Grundy declared he unhesitatingly declared the committee is at liberty to select its own term.

"But the pertinent point of the

matter is," his letter said, "that while those states have one senator for each 28,622 voters, or a total of 12 senators in all, Pennsylvania, with a population of about 10,000,000, has but one member and a single voice in the U. S. senate.

"More pertinent still are the same facts when expressed another way, namely, that if Pennsylvania had representation in the senate in the same ratio as these states, it would have 52 1/2 senatorial votes instead of only one."

England Determined. Grundy referred the committee back to other tables he had submitted showing how the industrial states pay most of the taxes, income and corporation, to support the government, and then offered a comparison of times that fairly stunned the committee.

He declared that the Democratic-insurgent coalition, which is daily wrecking the tariff bill as it was written by the house, to be adopting the same attitude that England adopted against the American colonies and which led to the Revolutionary war.

"England was determined," he said, "just as the Democratic-insurgent coalition in congress today seems to be determined—that in respect of its own industrial independence, this country ought to take second place to all the rest of the world desiring to compete in the American market."

American success throughout its 150 years, he said, had been built upon the foundation of tariff protection. He traced the ebb and flow of prosperity for more than a century, contending that when the Republicans were in power and tariff rates were high the country was prosperous, and when the Democrats were in and rates were low the country was correspondingly depressed.

Spanish War Vets Plan For Dinner

A regular meeting of Colonel Daniel Leasure Camp No. 24, United Spanish War Veterans, was held last night at the Legion Home and was very largely attended. Many matters of importance to the organization were up for consideration and plans were made for a dinner to be held at the Legion Home Saturday evening, November 23, from 5 to 7:30 p. m. The members of the camp are planning to entertain a large number of people on that occasion.

Hoover's Idea Of Inland Waterways May Be Realized

New Chairman Of Appropriations Committee Favors President's Plan

STRICT ECONOMY TO BE ENFORCED

By WILLIAM S. NEAL, International News Service Staff Correspondent WASHINGTON, Nov. 12.—Huge appropriations for President Hoover's ambitious scheme to link the vast Middle West with the sea by development of waterways was forecast today when Rep. Will R. Wood (R) of Indiana, newly elected chairman of the House Appropriations committee, pledged his full support to the movement.

Although emphasizing that he will attempt to enforce a policy of strict economy in the Appropriations committee, Wood declared that inland waterways plan offers congress its greatest opportunity for constructive legislation to benefit the entire nation.

Close Cooperation. Close cooperation between the Appropriations committee and the White House on all phases of the government's annual budget of nearly four billion dollars was predicted in the regime of the new chairman. Soon after being elected by the House he held a conference with Walter Newton, secretary to the president and his intermediary with congress.

Chairman Wood also announced that he will urge congress to provide ample funds to carry out the Jones-White Merchant Marine Act which provides mail subventions for American lines. He criticized the action of Postmaster-General Brown in withholding contracts pending an interpretation of the act, asserting that congress had spoken plainly on the subject.

Favors Program. "I am heartily in favor of the president's program of inland waterways development," said Wood. "I believe it embraces more potentiality for the development of the country and the settlement of the farm problem than any other project that can be legislated. It has been a dream for years; it ought to become a reality."

"The first great step, in my opinion, is the completion of a waterway from the Great Lakes to the Gulf of Mexico, thus connecting American farms and factories with south and Latin-American markets."

Chairman Wood declared that under the Merchant Marine act it was the duty of the postmaster-general to let contracts for mail and pay subventions to the lowest bidders whether they obtained their ships from the shipping board or from other sources.

At the present time an inter-departmental cabinet committee is considering the question of whether shipping firms which bought from the U. S. shipping board should not be given preference. Otherwise, the postmaster-general has pointed out, the government may sell ships and then destroy the value of the sale by giving mail contracts to others.

Delay Is Hurtful. "Congress provided that the lowest responsible bidder should get the contract, and I see no reason for doubt on the question," said Wood. "I think that the subvention system should be carried out without delay. Every day of delay is hurtful to the American Merchant Marine."

With \$26,000,000 now being provided for subventions to build up a merchant marine, Wood predicted that additional funds would be necessary because of its rapid growth.

The committee, he said, would begin work next week on the presidential budget, which at this time is fixed at about \$3,800,000,000 or about \$111,000,000 less than last year.

"It will be my hope and endeavor to keep appropriations nearly as possible to the level of last year or below it," he said. "There is a natural growth in the cost of government which we must face. Nearly every department this year has asked funds for additional clerks. The postoffice is constantly enlarging its activities."

Has Receipt Dated In Year Of 1857

Councilman William T. Burns today explored through some old documents and discovered an Express Company receipt dated June 5, 1857. The receipt is well preserved. The writing was of the fan 7, shaded letter kind. Mr. Burns also possesses several 1829 half pennies, he stated.

OH, THESE WOMEN!

By LEOLA ALLARD

Men are invariably honest about their ages. Women never are. Somehow youth doesn't seem to be the asset to men that it is to women. Men tell you truthfully how old they are, and you can take them or leave them, as you like. Some women do both.

A woman changes her age each time she tells it. You meet her ten years after you left the old home town and she tells you she is a year younger than she was when you went away. She probably doesn't expect you to believe it, but there it is! They add birthdays and at the same time subtract years. Only the nimble witted can do that.

A current play informs us that old men "believe everything you tell them, and sleep eighteen hours a day." "If that is so, what is it that we see congealed in easy chairs, in the windows of these 'one clubs' along Fifth Avenue, that has the appearance

of old men? They look as if you'd have a difficult time making them believe ANYTHING. But it would never occur to them to lie about their ages. Seventy-five—eighty—it doesn't matter.

Women like the mystery of the thing. They want to have something you have to guess about, and with clothes just what they are, their ages are about all that you don't actually know. So a woman of 18 says she is 23. One of 35 says she is 25, and one of forty is 30.

It's news when a woman tells the truth about her age. That is why this got into print some time ago:

A Judge asked a colored woman in the witness chair her age.

"I'm seventy-three, Judge."

"But Mandy you don't look that old," the court told her. "Are you sure?"

"Yes, I'm sure," she told him.

A few minutes later Mandy interrupted the court to say: "Judge I

made a mistake. That seventy-three is ma bust measure." (Copyright, 1929, King Features Syndicate, Inc.)

Hear Objections To Tax, December 9

Council today announced a change in the date during which persons who object to assessments on new properties can be heard. The date had been set as December 16 but today it was stated that the hours would be 2 until 4 p. m. and the date, December 9. It is important that those who wish to voice objections be present, else their claims may not be given consideration after the day for objection slips by.

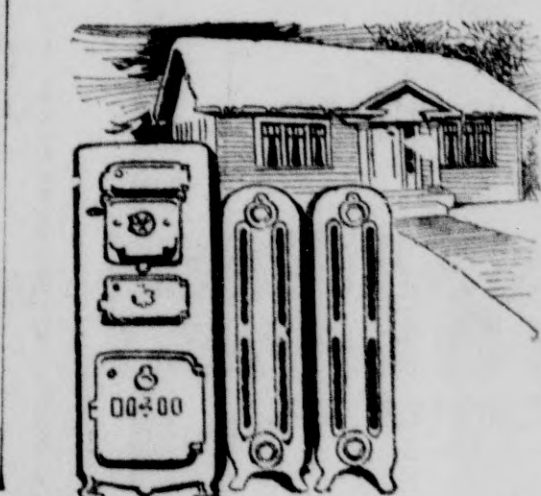

Mr. and Mrs. Charles Shepp, and son, Jack, of Brooklyn avenue, and Mr. and Mrs. Charles Davis, of Hillcrest avenue, spent Sunday in Pittsburgh. While there, Mr. and Mrs. Davis visited their nephew, James Young, who is confined in the Allegheny hospital. His condition remains about the same.

Urges President To Intervene For Mooney-Billings

(International News Service) NEW YORK, Nov. 12.—Declaring that the continued incarceration of Tom Mooney and Warren Billings in

a California prison is a serious blot on the honor of the country, Senator Gerald P. Nye of South Dakota in an article in the December issue of Plain Talk, demands President Hoover see justice is done the two men.

"There would be no better way for President Hoover to begin his law enforcement campaign than by intervening for these men who have served 13 years for a bombing outrage they did not commit," Nye said in the article.

Millions of Safety Symbols

Each year more than 120,000,000 labels of the Underwriters' Laboratories are attached to various articles, devices and materials used by the American people.

Many of your housekeeping utilities—much of the equipment which serves in the homes, stores, factories, offices, schools, theatres and other public buildings—bear the well-known Symbol of Safety—the label of Underwriters' Laboratories, Inc.—because they have earned that right through severe test and inspection.

Manufacturers Co-operate

In co-operation with many thousands of manufacturers, the Underwriters' Laboratories scientifically establish and safeguard the fire and accident hazards of many thousands of different devices and materials.

In 1928 this work involved nearly 60,000 inspections in 63 cities, hundreds of re-examinations, and approximately 4,800 laboratory tests and examinations by the more than 400 engineers and especially trained employees.

A Public Service

Underwriters' Laboratories, incorporated in 1901, was established and is maintained by The National Board of Fire Underwriters. It is now the largest privately owned testing laboratories devoted to the conservation of life and property.

The principal testing station is in Chicago. It is an exceedingly interesting place to visit. Scientists and engineers from all over the world go there to see the work and examine the methods used. The public is always welcome.

By thus safeguarding life and property the Stock Fire Insurance companies make one of their most substantial contributions to the public welfare.

AN EVIL TO BE DREADED

Banish Constipation With Kellogg's ALL-BRAN

Constipation is a widespread evil. Many have it but do not realize it. In spite of pills and laxatives it does its deadly work—sending poisons through the body—undermining health and happiness.

The first signs of constipation are headaches, tired feeling, spots before the eyes, sallow complexion. Don't neglect these symptoms. Start eating Kellogg's ALL-BRAN. It brings sure relief and prevents constipation.

Thousands have regained their health with Kellogg's ALL-BRAN. Doctors recommend it. Because it is 100% bran it brings 100% results. Part-bran products are only "part" effective.

Kellogg's ALL-BRAN is guaranteed just as two tablespoons daily—chronic cases, with every meal. You'll like its crispness and flavor.

Ready-to-eat with milk or cream. Delicious with fruits or honey added. Use it in cooking. Recipes are on the package for muffins and breads. Sold by all grocers. Served by hotels, restaurants and dining cars. Made by Kellogg in Battle Creek.

Dear Brother Lion—
Wednesday, November 13, we are to have as our guest and speaker District Governor David R. Perry. We will also have large delegations from the Beaver Falls, Butler, and Farrell Dens.
Governor Perry is a busy man and

is coming to us by special arrangement to outline our program for the convention next year. It is the duty of every New Castle Lion to be present and a rare privilege to hear Dave Perry.

We will have some additional features on the program. Orchestra music, comedy and songs are being arranged for by the program committee.

The dinner will be at 7 o'clock p. m. at the Elks Club.
Very truly yours,
Thomas I. Elliott.

To put summer clothes away clean now not only will save time next spring but will save them from the damaging effect of dust on the fibers.

The advance cost of the longer, fuller dresses is said to have affected the French women and they are buying a great deal of black.

You can tell a prosperous country. Nearly all of its unemployed get paid for it.

Y Boys Seeking Homes For Visiting Delegates

With four hundred boys scheduled to gather here on November 29 and 30 and December 1, directors at the Y. M. C. A. have launched an effort to secure rooming accommodations for them. It is said that a hundred of the boys have been offered homes, but 300 more must be taken care of.

William Thomas, boys' work secretary at the "Y", is in general charge of arrangements and would deeply appreciate the offer from New Castle residents to care for at least one delegate. The boys will be here only Friday and Saturday nights, departing from the city some time Sunday afternoon.

The coupon below may be filled in and sent to Mr. Thomas by anyone who will entertain at least one.

W. A. Thomas,
Y. M. C. A.,
New Castle, Pa.

I agree to entertain for lodging and meals delegates during the three days of the convention.

When Your Cough Hangs On, Mix This at Home

The best cough remedy that money could buy, can easily be mixed at home. It saves money and gives you the most reliable, quick-acting medicine you ever used. The way it takes hold of stubborn coughs and chest colds, giving immediate relief, is astonishing.

Any druggist can supply you with 2 1/2 ounces of Pinex. Pour this into a pint bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it, you will never be without it. Keeps perfectly and tastes good—children really like it.

It is surprising how quickly this loosens the germ-laden phlegm, soothes and heals the inflamed membranes. At the same time, part of the medicine is absorbed into the blood, where it acts directly on the bronchial tubes, and helps the system throw off the whole trouble. Even those severe coughs which follow cold epidemics, are promptly ended.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

Steals 14 Lambs In Raid On Farm

Mercer County Man Under Arrest For Wholesale Theft Of Live Stock

MERCER, Pa., Nov. 12.—Jason Webster of Utica, aged 31 years, is in the county jail charged with the theft of 14 head of lambs taken two weeks ago from the farm of W. R. Beal of Perry township.

The lambs, valued at \$125, were sold, it is alleged, by Webster, who was arrested by State Police Knudson and

McEwen, who are members of the county assignment of these officers. Webster, after being brought to the jail by the officers Saturday evening, is said to have made a confession to the crime.

Power to Fight Off COLDS

Why is it that some people never have colds? They are never laid up with serious illness. This power to resist disease is the result of proper nourishment.

When the necessary elements to build this power of resistance are lacking in the diet, cod liver oil when given in palatable form as in Father John's Medicine will supply the necessary strength and power to throw off the disease.

Immense Crowd Gathers At Y. W. Monday Night For Fellowship Night

Eight hundred people attended the celebration of World Fellowship night at the Y. W. C. A. Monday night. No provisions had been made for such an unexpected large crowd, and as the celebration would hold only half of those present, the program was repeated for the benefit of those who were unable to witness the first performance.

Forming a lovely spectacle, the groups in their turns delighted the crowd with the unique songs and dances. There were Italian, Polish and Hungarian dancers. The Hungarian dancers were from Ellwood and were very talented in the dancing art. A special feature was a dance by little Dorothy Franceski and James

When Your Cough Hangs On, Mix This at Home

The best cough remedy that money could buy, can easily be mixed at home. It saves money and gives you the most reliable, quick-acting medicine you ever used. The way it takes hold of stubborn coughs and chest colds, giving immediate relief, is astonishing.

Any druggist can supply you with 2 1/2 ounces of Pinex. Pour this into a pint bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it, you will never be without it. Keeps perfectly and tastes good—children really like it.

The Parent Problem

by GARRY C. MYERS, Ph.D.

Seeing Self As In Youth Is Helpful

By nature we are self-important; accordingly we lord it over children and we exploit them for our selfish interests. We often use them to promote our pride and personal satisfaction. We even make their pains, at times, our pleasures. Of course, we do not consciously set out to be domineering over children. We just do it unawares. Our nervous systems do it for us. But we are guilty just as surely as we breathe.

Only as we study children with a view to understanding their interests and motives, how they act and think and feel, with a view also to see ourselves as children see us, to discern our own specific human frailties; and then only as we strive to rise above those frailties, to improve upon ourselves, and to adapt ourselves to children, can we hope to keep ourselves from annoying them unnecessarily. Only then can we hope to win their honest admiration and be loved by them. In proportion as we adults can make children really care for us, shall we be able to guide them into better conduct.

We are prone to be very inconsiderate of our children, to become discourteous to them and even to be rude. If to our adult friends we were as boorish as we are to children we would soon be social outcasts. We talk back to children, interrupt them, and contradict them; but we rise in wrath if children dare to imitate these eruptions in us.

We seem to get pleasure in making children feel they are younger than they are, that they can do far less than they are able to, and that they have no judgments or opinions worth our listening to.

To this day you and I suffer on account of fears of folk. We acquired most of these fears through

our childhood contact with adults. When we were mere infants our loved ones laughed at our questions and remarks. We had not meant to be funny. We, therefore, were deeply hurt. We could not understand why big people would make fun of us. How we suffered!

Consequently we became more and more cautious. We often kept quiet when we were very eager to seek some information or to express ourselves. We, therefore, were driven to cut ourselves off from the greatest avenue of learning. You and I find ourselves keeping silent when to ask a question or to make a remark might open up to us a whole world of wisdom.

Now we want our children to grow up with fewer fears of folk than we have had.

This proviso, please: While we are striving to develop children who are able to express themselves comfortably and to realize themselves as individual personalities, let us also try to train these children that others may express themselves comfortably too.

Discovers Home Robbed In Absence

E. H. Parks of 923 West Clayton street, reported to the police last night, that his home had been entered. Detective John Young and Officer Letera answered the call and found that Mr. Parks had not discovered the fact of the theft until six o'clock last night.

It had occurred on the night of November 10. Entrance had been effected through the front door, which had apparently been left unlocked. A pair of blue serge trousers, a ten dollar bill, twenty-five cents in change and four regular passes and a trip pass to Cleveland made out to Mr. and Mrs. Parks were taken.

The very latest in English tea service is an unobtainable silver set in the shape of books, teapot, milk jug, sugar bowl and basin. There are no spoons and the handles do not project. The handle is an indentation in one corner of the piece, while the beverage is poured through a small slit in the opposite corner.

Workers Seek \$8,000 To End Fund Campaign

General Campaign For Clean-up Of Community Chest Fund Opens Last Night

ADDITIONAL WORKERS VOLUNTEER TO AID

With a number of additional men and women who have volunteered their services in behalf of the Community Chest fund drive present, the last phase of the 1930 Community Chest campaign opened last evening in the Y. M. C. A., when a determined group met to organize a clean-up squad.

The master list of the Community Chest was combed for those who have not subscribed to the fund this year, and these people will be seen during the coming week by the workers.

With \$61,132 already subscribed, the additional sum of \$8,368 is needed to put the fund over the top for the coming year. Many names were found on the list, of persons who evidently had been overlooked by the workers during the earlier stage of the campaign, and the cleanup squad will make contact with them in the hope of finishing the drive this week.

Drive Well Managed

The campaign this year has been

better managed than in any previous campaign, and at a far lesser expense. James W. Cole, secretary of the Chamber of Commerce was loaned to the Community Chest by the directors of the chamber to manage the campaign, and with the assistance of Mrs. Grace Phillips Johnston, the president, the experiences of past campaigns were combined in a plan which has proved highly successful.

Mr. Cole states that the citizens of the city have appreciated the fact that more than \$5,000 has been saved because of the economies practiced in the campaign this year, and many people have increased their subscriptions this year of this fact.

For another thing, he states, the various participating agencies were reviewed by a group of local business men, who had no connection with the Community Chest or with any of the agencies, and they scanned the budgets of the various agencies carefully, making cuts in many of them.

The different agencies have also practiced economy as much as possible and the utmost efficiency is now being attained in the administration of the Community Chest fund by the various contributing organizations.

The result has been that the Community Chest appeal this year has met with the approval of every public spirited citizen and they have responded accordingly.

Camels are for knowing smokers!

It's just too bad if any smoker because of misinformation denies himself or herself the pleasure of CAMELS.

New smokers are not always in a position to have a real preference in cigarettes. But when they acquaint themselves with Camels they develop that sense of discrimination that leads to real smoking pleasure. Camels are made so carefully and of so good a blend of choicest cigarette tobaccos that even those with inexperienced smoking taste quickly recognize their superiority. They are for those who appreciate the taste of choice tobaccos, the fragrance of a perfect blend and the soothing mellowness of a really satisfying cigarette.

when they learn the difference they flock to Camels

History Contest At Senior High

Essay Contest Under Daughters Of The War Of 1812 Now On At High School

Another contest under the auspices of the Daughters of the War of 1812 is being held at the senior high school. This is a history contest for students in United States History and Problem of Democracy.

A prize of five dollars will be given the student writing the best essay on either of the following two subjects: "The Fight for Neutral Rights;" "The Freedom of the Seas."

Students graduating in January and taking either of the two subjects mentioned above are compelled to enter the contest as an essay is necessary to complete the course in history.

Miss Sarah Dinmore and Miss Elsie Calvin are the two faculty members in charge of the contest.

The essays must not have more than 1,200 words or less than 1,000 words. All essays must be in by December 13. The contest is causing interest among the students.

Life Saving Scouts Are Organized Here

The Salvation Army of this city was honored last night when Capt. Ron Irwin, organizer of Western Pennsylvania visited the local army's newly organized Life Saving Scouts of the World. There were two full patrols present and several past their first test. Ralph Montgomery, the scoutmaster, is hoping to have the boys in uniform soon.

The organization is part of the Salvation Army's religious educational work. Ensign V. Thomsen was in charge of the meeting.

Special Services At St. Joseph's

This evening at 7:45 aside from the usual novena prayers at St. Joseph's church there will be a memorial service for the dead. These will be held each Tuesday of November as the catholic churches hold this month as "All Souls' month."

The memorial sermon based on the text from the book of Job, "Have Pity on Me, at Least You, My Friends, for

the Hand of the Lord has Touched Me" was given last week and tonight's address will be, "The Iconoclasts, the First Bolsheviks."

Baptist Church Begins Revival

The revival service being held in the Second Baptist church was well attended last night and the audience heard a forceful sermon by Dr. J. A. Jordon, who spoke on "Good Soldiers for Christ," an Armistice Day sermon. The music by the senior choir was well rendered.

Tonight Rev. Jordon will speak on the much discussed subject, "Is It

Any Harm to Dance?" Special music will again feature tonight's program. Prayer service will begin at 7:30 with A. Eggleston and C. Jackson as leaders. Rev. W. W. Nelson is pastor of the church.

I can truthfully recommend Thompson's Barosma, Kidney and Liver Compound As A Fine Medicine.

I can truthfully recommend your Barosma as a fine medicine and a cure for all you claim for it. I am almost entirely free from rheumatism and my general health is greatly improved. Sincerely yours, Mrs. Susan M. Lyons, Titusville, Pa.

All druggists sell Thompson's Barosma for \$1.00 a bottle and they say if it doesn't drive the poison from your clogged up kidneys; stop backache or sideache, or banish female ailments, money back.

If you are feeling blue and run down, no doubt your kidneys are wrong and you should not procrastinate. Hundreds probably are dying every day from kidney disease, simply because they didn't heed the danger signals.

Dizziness, specks before the eyes and that dragged down feeling are pretty sure signs of kidney trouble. Get a bottle of Thompson's Barosma and put your kidneys in a healthy condition in a few days.

If you are troubled with constipation always take Golden Lax Tablets (25c and 50c) along with Barosma.

She announced Daniel Weisbach, one of the jurors who found the former secretary of the interior guilty of accepting a bribe, came to their apartment in Washington after the verdict. Begging forgiveness, according to Mrs. Fall, Weisbach declared

arguments of Thomas E. Norris, foreman, influenced the jury's decision. After the second ballot, which stood nine for acquittal and three for conviction, Norris launched his arguments, finally winning the support of the other jurors. Mrs. Fall said Weisbach told her.

Adjournment Of Special Tariff Congress Hinted

May Decide Upon Adjourning
Special Session To Await
Regular Session

DEMOCRATS FAVOR NEW PROPOSITION

WASHINGTON, Nov. 12.—Talk of adjournment of the special session of congress and continuation of the tariff fight in the regular session beginning December 2 increased today as the senate continued its laborious task of acting upon the thousands of individual items in the Hawley-Smoot tariff bill.

Although Republican leaders had virtually abandoned discussion of an interim between the end of the special and commencement of the regular sessions, many Democratic senators are now known to be advocating cessation of the regular session on November 13.

Sen. Jones (R) of Washington, acting majority leader, professed lack of knowledge of the Democratic suggestions and Sen. Borah (R) of Idaho, a leader of insurgent Republicans, has consistently discouraged the idea.

Following the action of the senate in adopting a sliding scale of tariff rates on antimony through agreement between "old guard" and coalition leaders, there appeared to be prospect of the senate speeding up its tariff work.

Closer cooperation was predicted, with the power of the coalition now admitted on all sides.

The senate was engaged in cleaning up odds and ends of the metals schedule today, with gold, silver and watch tariffs among the subjects slated for early action.

Plan Conference Of Credit Bureau Men

Ray F. Hall, manager of the New Castle Credit Exchange, will attend a meeting of managers of credit bureau agencies in western Pennsylvania in Pittsburgh November 20th, when a conference will be held on collection procedure.

J. E. Corn, manager of the Blair County Credit Bureau of Altoona, who has built one of the most successful collection departments in western Pennsylvania, will speak on this subject.

Robert Greenberg of Steubenville, who is nationally known as a successful collector of accounts, will also be on the program.

Daughter Of Former Pastor Passes Away

The many friends of Rev. Samuel Whilding, former pastor of the First Congregational church, and his family were shocked this morning to receive word of the sudden death on Monday at the Whilding home in Jackson, O., of Nesta, the seven-year-

old daughter of Rev. and Mrs. Whilding. This little girl, known throughout the city for her sweet and friendly disposition, had only recently returned from a five months stay with her mother in Wales. She had been in rather poor health, but the trip to Europe had apparently benefited her greatly. She had only recently written little friends here of her expectation to visit here soon. She is survived by her parents and two brothers.

GIRL SCOUTS

Class Meets

The taining course in troop management, taught by Miss Nance Pugh, director of New Castle Girl Scouts, met in the Girl Scout office in the Y. W. C. A. building, Monday night at 7 o'clock.

Leader's Meeting

At 7:30, this evening, there will be a leader's meeting in the Girl Scout office.

Rotary Troop Program

Rotary Troop No. 1 held its regular meeting at the Benjamin Franklin junior high school and the following program was the order of the evening: Games.

Assembly, opening ceremony. Announcements of plans, troop business.

Patrol, meetings and instruction; practice events for the Round-up; collection of dues, Patrol L; check-ups on good turns.

Boys ready for tests proceed to examiners.

Closing ceremony, after which the boys enjoyed a half hour's swim in the pool.

PHALANX BASKETBALL TEAM WILL PRACTICE

Phalanx basketball squad members will hold a practice following the regular meeting on Wednesday evening. It was announced by Linden Bruce, chairman of the fraternity's athletic committee today.

The usual dinner at 6:30 p. m. will precede the program.

Credit Exchange Directors To Meet

Members of the Board of Directors of the New Castle Credit Exchange will hold their final meeting before the annual election of directors at the Elks Club, Thursday, November 14 at noon.

Discussion will be had on the coming election as well as other matters of importance. The annual meeting and election will take place in the Elks Club Thursday noon, November 21.

An open meeting of New Castle Aerie No. 433, Fraternal Order of Eagles, will be held next Monday eve-

ning, Nov. 18, in the hall of the Eagle Home on South Jefferson street. Members and their friends will be welcome to attend and hear Thomas O'Donnell of Kansas City, Mo., member of the organization department of the order and one of its most eloquent speakers, will be present and tell of the work of the organization.

Auto Dealers Will Meet Friday Noon

Members of the New Castle Automobile Dealers Association will meet Friday at noon in the Elks club, when a number of important matters will be discussed.

The regular program as outlined by the National Association relative to the repossession of cars will be among the most important matters to come up for discussion.

The ideal breakfast is one that tastes as good as yours would look in a three-color magazine ad.

Open Meeting Eagles Will Be Held Monday

An open meeting of New Castle Aerie No. 433, Fraternal Order of Eagles, will be held next Monday eve-

Many Play Health Market On Margin Declares Appel

"Two weeks ago, as everyone knows, the greatest break in its history occurred on the New York Stock Exchange. Then it was that literally thousands of men and women, who a few hours before considered themselves rich, woke up sadly to the fact that they were bankrupt. Playing the market on the margin, they found themselves unable to meet their loans when the test came, and ruin followed. Money and health are exactly alike in this respect," said Dr. Theodore B. Appel, State Secretary of Health, today.

"Bad as the situation was, there is an inconceivably worse one in the United States today. Where there were thousands manipulating the money market on margin, there are tens of thousands playing the health market in like fashion. The end results of course will not be as spectacular as was the stock market crash inasmuch as physical bankruptcies do not occur simultaneously. They are continuous performance of affairs, crippling individuals here, killing others there. But the situation is none the less pathetic or devastating for that fact.

"A large number of people, wise in their own conceit, including the young, middle aged and even older ones, somehow conclude that they can play health on the margin and win. But it can not be done.

"The person who habitually robs himself of adequate sleep, a proper amount of fresh air, sufficient exercise and becomes a marginal player through late hours and exhausting and enervating habits, has a day of inevitable reckoning if he persists

in his folly. And it is likely to hit him out of a clear sky.

"True, hospital fees, undertakers' accounts and even doctors' bills are enlarged by such practices, but that is little consolation to the fellow who has played the health game 'on margin' and has lost.

"Just remember that health has its fixed and sensible rules. It may be purchased by proper living and judicious care. And it can be suddenly lost by opposite treatment.

"Are you playing the health market on margin? What do you expect to get out of it? Better play safe by investing in proper living, which is the only type of health finance that pays. Life is sweet. Don't kill it by 'margin playing'."

PRINCETON

Mrs. F. R. Weisz entertained the girls of her Sunday school class at an evening party, Friday evening. Music and games were the pastimes and in the contest, prizes were won by Velma Shuler, Mildred Shaffer, Bernice and Jean Myers. Light refreshments were served at a later hour by the hostess assisted by Mrs. C. M. McGuire and Mrs. Wesley Wilson.

Otto Gumble of State College and Walter Gumble of Hancock County, W. Va., spent the week end with their parents, Mr. and Mrs. George Gumble.

Mr. and Mrs. Norman Zeigler and son Kenneth Wayne of New Castle spent the week end with Mr. and Mrs. Finley Weisz and family.

Mr. and Mrs. McKinley Shaffer and sons Charles, Jack and Oliver spent Saturday evening with Mrs. Nancy E. Palmer of New Castle.

Jack Shaffer called at his grandmother, Mrs. Olive Davis of New Castle, Saturday afternoon.

Mr. and Mrs. F. R. Weisz and children Martha, Ray and Emma Mae and Mr. and Mrs. Norman Zeigler and son Kenneth called at the home of Mr. and Mrs. Christopher of Zelle-nople, Sunday afternoon.

The congregations of the Princeton and Hermon churches will decide next Sunday whether they will extend a call to the Rev. Louis Greenlee of Erie. It is hoped the members will be all present. Service at 7:30 p. m. at the Princeton church.

Senator Brookhart's speech seems to have entertained the Senate hugely, but about the only fact that emerges from it is that with plenty of booze to be had he did not take any.—The New Bedford Evening Standard.

Try this delightful face powder

From the first appeal of its flower-fragrance to the radiant beauty it gives your skin, Plough's Face Powder is a real satisfaction and delight.

The natural tints of this powder seem made for your complexion. The texture is soft and caressing, and tends to refine coarse pores as well as to give the effect of smoothness and beauty! And this effect lasts for hours without renewing, and keeps the complexion dainty and appealing. Two sizes, popularly-priced, at all dealers.

Bed Smoker Meets Death By Suffocation

ALIQUIPPA, Nov. 12.—Overcome by smoke when his cigarette ignited the bed clothing after he had fallen asleep, Joseph Klaczak, 38, Polish, 247 Calhoun street, died of suffocation.

Firemen and physicians worked, using inhalators and oxygen tanks, in an effort to resuscitate him, but to no avail.

According to firemen, Klaczak had gone to bed in his room at the boarding house of Mrs. Mildred Danovich, 247 Calhoun street, and it is believed he lit a cigarette as he lay among the covers. It is believed he fell asleep, allowing the cigarette to fall into the bed clothing.

Re-Apportionment Provides Big Problem For State

(From News Bureau) (State Capital)

HARRISBURG Pa., Nov. 12.—Passage of a re-apportionment law at the coming session of congress might result in complications for the election of Pennsylvania's delegation to the next congress. Most re-apportionment bills which have been sponsored at Washington would reduce to 35 the number of congressmen from this state.

Unless a special session of the legislature is called for that purpose there can be no redistricting of Pennsylvania until the regular session of 1931. At that time the re-apportionment of the state would be made on the basis of the census to be taken next year.

The bills which have been drafted by legislators in Washington call for a re-apportionment on the 1920 census and would the Department of Commerce authorized to determine the congressional strength from each state following the taking of each census. With Pennsylvania standing to lose one representative in the lower house of congress there would be confusion in the election of the next delegation if the federal statute is made effective immediately.

Local Cornetist Travels Abroad

Alfred Topliss, a well known young man, formerly of this city, is traveling around the world with the orchestra of Charles Ahearn, according to word received by one of his New Castle friends.

Mr. Topliss, the son of Ensign and Mrs. E. Topliss, who were in charge of the local Salvation Army for several years, has played a trumpet in the orchestra for a year, in New York City and in Atlantic City. He is now in

London, England, playing in the Holborn Empire theater. He has been in London for several months, and on one or two occasions, in Scotland.

Sunday he will leave for Paris, France, where the orchestra will be a feature in the opening of a large revue at the Casino De Paris. Mistinguet, a famed dancer will appear in this revue. From France, the group of musicians will go to Berlin, Germany and from there to Russia, Italy, Australia and back to New York City.

ENROLLMENT DOUBLED IN NIGHT SCHOOL

Since the beginning of the term, the number of people attending night Americanization school, at Lincoln Garfield school, has doubled. The first night of the class, several

weeks ago, 25 persons were present. Now, the number has increased to 55. Most of those enrolled are men. James Hughes teaches the more advanced pupils and Peter Grittle instructs the beginners. The classes are conducted each Monday and Wednesday evening, from 7:30 to 9:30 o'clock. Government and civics are special studies. Citizenship papers will be drawn this month and the classes prove very beneficial in the obtaining of the papers.

Club Women Hard At Work On Light Project For City

Committees Busily Engaged In
Soliciting Business Men Of
Downtown District

Five different groups of women from the Woman's club are hard at work today soliciting the various mer-

chants in the downtown business section in an effort to enlist their support for the proposed festoon lighting plans which will be placed in use during the holiday season. These groups are in addition to the ones who were working on the project yesterday and in every instance, they have found the merchants most heartily in accord with the plan.

The women who are working today are:

North Mill street east side, Mrs. W. C. Eckenrood and Mrs. David Ritchie.

HIGH LIGHTS OF HISTORY

The Story Of The World War
164—The Rise Of The Bolsheviks.

DURING THE SUMMER OF 1917, WHILE THE POWER OF THE KERENSKY GOVERNMENT RAPIDLY DECLINED IN RUSSIA, THE BOLSHEVIKS STEADILY GREW IN NUMBERS AND INFLUENCE. THE SOUL OF THE BOLSHEVIST MOVEMENT WAS NICOLAI LENIN. AT THE OUTBREAK OF THE WORLD WAR, LENIN WAS LIVING IN SWITZERLAND, HAVING BEEN BANISHED FROM RUSSIA FOR HIS REVOLUTIONARY ACTIVITIES.

WHEN THE FIRST RUSSIAN REVOLUTION (MARCH, 1917) DESTROYED THE CZARDOM, LENIN DESIRED TO RETURN TO RUSSIA. BARRED FROM FRANCE AND ENGLAND, LENIN MANAGED TO GET TO RUSSIA BY TRAVELING THROUGH GERMANY IN A SEALED RAILWAY CAR.

THE SOVIET GAVE LENIN A BIG RECEPTION ON HIS ARRIVAL IN PETROGRAD, AND HE AT ONCE BECAME THE LEADER OF THE EXTREME RADICALS. HE ADVOCATED A REVOLUTION THAT, BEGINNING IN RUSSIA, WOULD SPREAD "COMMUNISM" ALL OVER THE WORLD.

IN JULY, 1917, THE SOVIETS MADE A PREMATURE ATTEMPT TO OVERTHROW THE PROVISIONAL GOVERNMENT. HOWEVER, KERENSKY SUMMONED TROOPS FROM THE FRONT TO PETROGRAD AND THE UPRISING WAS EASILY SUPPRESSED. LEON TROTSKY AND OTHER BOLSHEVIST LEADERS WERE ARRESTED AND IMPRISONED. LENIN ESCAPED AND WENT INTO HIDING.

Greensburg To Send About Two Thousand Here For Grid Game

Special Train Will Carry Over Thousand From Greensburg To New Castle Saturday

Greensburg Team Unbeaten; Have Five Lettermen From Last Year; Seek Revenge

By "BUGS" WALTHER

Down in Greensburg the slogan is "Beat New Castle". The big Brown Tornado football team is working diligently this week. On Saturday they are called on to face the New Castle high school football team at Franklin field. Unbeaten and untied and with an eye on the W. P. I. A. L. title this year, the Greensburg team will put forth every effort here this week to add New Castle's Bearcats to the 1929 victims list. Eight games have been played by Greensburg this year, and they have yet to be stopped.

Special Train.

Arrangements are under way to bring a special train here for the game. According to R. A. Hauer, sports editor of the Greensburg Daily Tribune, the town is considerably upset over the coming battle, and they have planned to send around 2,000 fans to New Castle.

Greensburg has a little score to settle with New Castle. Last season a great New Castle team descended on Packard field. Greensburg, and took a 31 to 2 verdict over a rather hefty Loucks crew. Dire forecasts were heard following that game, that next year it would be different. They must have known something. New Castle is not as good this year as they were in 1928. Greensburg on the face of things appears to be about doubly improved.

Five Lettermen.

Five lettermen are left from last year's Greensburg team, including Captain Hayden, guard; Cox, tackle; Vuddy, guard; Hamilton, guard; Brickley, fullback. Of the 11 New Castle men who faced Greensburg that cold bleak November day last year not a one is left. Only five men who saw service in the game last year as subs for New Castle will be in the game here Saturday—McAuley, McIntosh, Deep, Binder and DThomas. It was the elusive hard hitting Tommy Harper who made the Greensburg boys like it last year. Harper had a great afternoon down there in the mud and snow, ripping off long gains on a slippery field, and scoring three of the touchdowns for the Bridenbaugh clan. New Castle is minus Harper this year. Art Alexander is taking the job of fullback seriously this year, and the brown clad opponents will find him every bit as hard to stop as Harper. He does not have the speed that characterized

"Tommy", but his line plunging is every bit as effective.

Locals Must Wake Up. New Castle will have to snap out of it if they hope to make a showing Saturday against Greensburg. The play of the locals at Youngstown was quite ragged. The tackling was very weak. They allowed themselves to be pulled in a forward pass that should not have been completed.

Coach Bridenbaugh is driving the boys through a series of stiff workouts this week. It is no secret that "Bridy" was very much dissatisfied with the showing of his team last week against South. New Castle's offensive attack was woefully weak. They didn't lack fight as testified to by the 95 yards in penalties suffered, four of them for 15 yards and for serious infraction of the rules.

If ever New Castle need be in condition they must of necessity be this week. Greensburg will bring a team here that ranks above the locals. Their record to date is spotless. They are out to capture the schoolboy honors of western Pennsylvania. Coach Bridenbaugh and his 11 stalwart players hold the answer as to just how good this Greensburg team really is.

HERE AND THERE IN SPORTS' LAND
By ED. FRITZ

Fight fans had an off night last night, but next Monday night they will see two mighty atoms of the fly-weight division when Ernie Peters and Phil Tobias clash at the bowl. Tobias was kept out of the Madison Square tourney and he doesn't feel any too good about it. His manager, Bob Levy, charges Ernie was selected instead of Phil, and Levy hopes to see Tobias again chalk up a victory. Sam Pian, manager for Peters, declares Ernie was not in condition on his first trip with Tobias and says that Peters actually beat Dark Cloud Bradley at the Garden, and that is why the 9,000 paid customers howled themselves hoarse and derisively at the New York Judges.

Rosy Rosales, who fouled Armand Emanuel at Cleveland, has been fined his purse of \$1,500 and has been handed a year's suspension by the Cleveland boxing commission.

Mickie Solomon outpointed Mickie Fedor of Canton in 10 rounds and Harry Spencer scored a technical knockout over Tom McCafferty in the third round at Washington, Pa., last night. Joe Midway will be substituted for McCafferty at Franklin on Wednesday night. Solomon is fighting in fine style right now. He has beaten Johnny Plai and T. N. T. Gibbons with knockouts and Mickie Fedor was his third victory in as many weeks.

Meadville High defeated Franklin, 19 to 0, yesterday.

St. Thomas upset St. Bonaventure, 7 to 0, Scranton yesterday afternoon. They are traditional rivals.

Sharon won from Farrell, 21 to 6, at Farrell Monday afternoon.

Romeo Paacelli will swing gloves with Joe Katkish, a busybody featherweight, in one six-round bout and Johnny Jennings of the East Side will make his return to the ring against some 133-pounder next Monday night. Paul Balint, Pittsburgh, tackles Young Hardy, Beaver Falls, and Larry Gaston of Cleveland will take on Jim McVey of Akron.

Washington High trampled Har-Brack, 25 to 6, at Washington Armistice Day.

In the class B college gridiron play Waynesburg triumphed over Geneva, 7 to 0. Demoise and Knapik featured the game. Ten thousand witnessed the tilt.

Coach Layden has issued a call to Duquesne gridders to take the field today to resume training for the clash with Westminster Friday afternoon. According to reports from Duquesne none of the players were injured in the clash with Catholic U.

It looks as though the mythical championship of the country rests between the Pitt Panther and the Notre Dame Irish. The game between Pitt and Tech will give the fans a chance to draw their conclusions as to whether Pitt or Notre Dame is best.

Buck McTiernan received his first upset last night at Pittsburgh when Farmer Joe Cooper defeated him in 10 rounds at Pittsburgh. Cooper did not stand up as a first-class fighter, but he had too much stuff for Buck, who has been over-rated. Chet Smallwood beat Kenny Hargreaves in six rounds and George Pancka beat Ernie O'Neil in three rounds. The referee stopped the fight, as O'Neil was not in shape and he blew up.

Ernie Peters will arrive from Chicago Sunday and Phil Tobias will also reach here from New York City on the same day. There is little pugilistic friendliness between them and Monday night's encounter should be a bear for action.

Paul Balint, who fights Young Hardy next Monday night, on last evening at Washington, Pa., stopped Jackie Coogan of Canton in the third round. Coogan is the lad who gave Romeo such a terrific fight here last summer.

Busy Season Ahead For Local Y. M. C. A.

Gymnasium Schedule Outlined Calls For Greater Activity Than Ever

ASSISTANT PHYSICAL LEADERS ARE NAMED

With the appointment of Porter McCandless and Roger Meermans as assistant physical directors at the New Castle Y. M. C. A. to aid the present acting physical director, Henry T. MacNicholas, comes the announcement by the physical department council of the local institution of plans for expanding present gymnastic activities.

McCandless, it is announced, will handle a part of the gymnasium work and swimming classes, while Meermans will act as supervisor and instructor of different swimming classes.

Members of the "Y." physical department council have already outlined plans for one of the busiest seasons ever contemplated here. The scope of activities range from church and city basketball leagues down to swimming classes for young beginners.

Following are noted some of the most important activities carded for the remainder of the year: November 14 will see the formation of the New Castle "Y." church basketball league. This will occur at 7:15 that evening. November 18 will see the formation of the city basketball league at 7:15 o'clock that evening. Both leagues will start actual playing some time during the second week of December.

Plans have been made to organize the boys' basketball league, which will probably get started on the afternoon of December 21.

Speaking of the different leagues this year, Acting Physical Director MacNicholas has the following to say: "We expect the church league to be stronger than ever this year. It will be more keen as far as competition goes this year than for the past year or so. Numerous church teams are practicing already and a number of the men are enrolled in our senior class, thereby getting pre-season exercise."

"After November 15 the gym floor will be open to all basketball teams planning to enter the church league. Reservations to use it can be made by calling the "Y." and asking for the acting physical director. It is expected that 12 teams will enter the different church contests this year. It having played during the last season."

Concerning prospects of the city league, MacNicholas said: "The city league looks more promising than ever and there are three or four teams that are extra good."

The boys' basketball league is one of the strongest in "Y." circles in this part of the state. It is expected that this league will go over bigger than ever. Alex Samuels, representative of the P. D. council, is in charge of this group of boys and is making plans which will interest the players.

Volley ball is another sport which the local "Y." plans to make popular this winter—volley ball for business men in particular. It is planned to organize it on November 20 and have a volley ball committee to supervise it. MacNicholas, as physical director, heads the committee, with Joe Sulzer, council representative, and the captains of the different teams as members. The New Castle "Y." volley ball squad took honors in central Pennsylvania Y. M. C. A. circles last year and is out again to duplicate that very thing with Sulzer and Lou Harlan as coaches.

who as yet have not become as proficient at the sport as have those in the first section have been assigned to class B physical directors, who expect to start a tournament for the class B players within the next few weeks.

Handball instruction is given to those who wish to learn every Wednesday night from seven until eight o'clock. Special attention is given to the members for the entire enrollment of this class is interested wholly in handball.

Under the tutelage of Herbert Kirk Jr., another council representative, special wrestling sessions are held on Wednesdays from seven until eight. Those interested in this should join the class shortly. Able instruction and care is taken by Kirk, a former college wrestler.

A form of physical activity that seldom is heard at the New Castle "Y." are the junior leaders' corps and the senior leaders' corps. Henry MacNicholas, acting physical director, has just received his application for enrollment in the corps activities.

Speaking of the corps, of which the purpose is to stimulate volunteer workers to act in physical departments in any Y. M. C. A., MacNicholas stated that it makes boys realize leadership and trains them to acquire it. Already the junior corps has been organized with 12 members and the formation of the senior club is being contemplated. Herbert Kirk is the layman representative for all leaders' work.

Free classes are also being sponsored by the Y. M. C. A. and organized by which function in connection with it. A church club is conducted on Monday evenings from six until seven. Here indirect supervision is given by the Sunday school superintendent.

Union-Bessemer Play Here Friday

Annual Game At Scotland Lane Field Promises To Draw Large Crowd

Union high gridders will today commence a week of stiff drilling in preparation for the Bessemer game next Friday afternoon at the Scotland Lane field. This will mark Union's last engagement this season and the blue and white clad boys are out for a win, partly to wipe away the sting which last week's 7 to 6 battle with Slippery Rock left.

Union took honors in every game that was played until last Friday when the Mercer county team took the edge from their string of victories. However, Coach D. W. Boyd's men are out to win this week and have laid away all thoughts of last week's result.

Bessemer, it is learned, plans to send a powerful team to oppose Union.

Display Earns His Oats This Season

(International News Service) NEW YORK, Nov. 12.—Display, "Iron Horse" of American racing, today has placed his name next to Zev as the second largest money-winning horse.

When he dashed in first yesterday in the \$3,995 Baltimore handicap, today has placed his name next to Zev as the second largest money-winning horse. Display has started 99 times, won 23 races, been second 25 times and third 26 times. He is owned by Walter J. Salmon.

Grid Camp Briefs

(International News Service) NEW YORK, Nov. 12.—Alarmed by the ease with which Georgia completed passes, Chick Meehan this week will concentrate on providing the New York Violets with an adequate defense against aerial attacks.

Columbia today reorganizes its somewhat battered forces and begins preparations for the game with Penn on Saturday. It was definitely learned yesterday that Ed Edling, regular end, will see no more service this season, having received serious injuries in the Colgate tilt.

NEW HAVEN, Conn., Nov. 12.—Yale today will engage in the first of three scrimmages in preparation for the Saturday's important clash with Princeton. The scrimmages will be devoted to strengthening the defense.

PRINCETON, N. J., Nov. 12.—With all the squad save Trux Bennett in good shape, Princeton today begins its drive in preparation for the Yale tilt. Several new plays were added to the Tiger attack in yesterday's light drill.

NEW PLAYERS JOIN GERSON JEWELERS

The Gerson Jewelers basketball team held their initial workout of the year, at the "Y" floor on Monday night. Twelve men reported for practice.

There were four new faces on the floor for the Gersons this year: Max "Shaggy" Zlotnick, former South High Youngstown center, a youth towering six feet four inches, Bobbie Lucira and Chick Cohen for the forwards, and Meyer Broida. Zieve and Sac Levin are lost to the team this year, both boys attending Pitt University.

Coach Keith VanFosdan is very enthusiastic over the chances of the team hitting a winning streak this year.

Drastic Resolution Against Army-Navy Athletics Proposed

(International News Service) WASHINGTON, Nov. 12.—The West Point Military Academy and Annapolis Naval Academy would be prohibited from engaging in intercollegiate athletics until the two institutions resumed athletic relations under a resolution introduced in the house Monday by Rep. Edwards (D) of Georgia.

The resolution directs the secretaries of war and navy to issue orders to this effect.

Church Managers To Meet Thursday

Church League Basketball Loop Will Be Organized At "Y" On Thursday

Henry MacNicholas, physical director of the Y. M. C. A., made the announcement today that on Thursday night of this week, the various churches of New Castle desiring to enter the basketball league for this year, send representatives to the session to be held at 7:15 o'clock.

It is understood that twelve teams are seeking entrance into the league. There is considerable enthusiasm being shown in the league this year. MacNicholas will supervise the circuit.

All teams in the league last year, and any new teams desiring to enter are asked to have their managers at the Thursday night meeting. Plans for the coming floor season will be discussed.

Waynesburg Team Defeats Geneva

Yellow Jackets Surprise With 7 To 0 Victory At Beaver Falls

REEVES FIELD, BEAVER FALLS, Nov. 12.—The Yellow Jackets of Waynesburg swarmed over the Reeves Field floor here today and came out of the Armistice Day engagement 7 to 0 victors over a fighting Geneva college football machine.

The game was replete with thrilling plays, and fine work on the part of Johnny Knapik and Frankie Demoise. The two field generals stood out quite prominently in the fierce struggle. Demoise scored the lone touchdown for Waynesburg, slipping over from the one-yard line in the fourth period.

A crowd of 10,000 turned out for the game, to witness the struggle between two surprising eleven, but were rewarded by seeing a battle between two individuals.

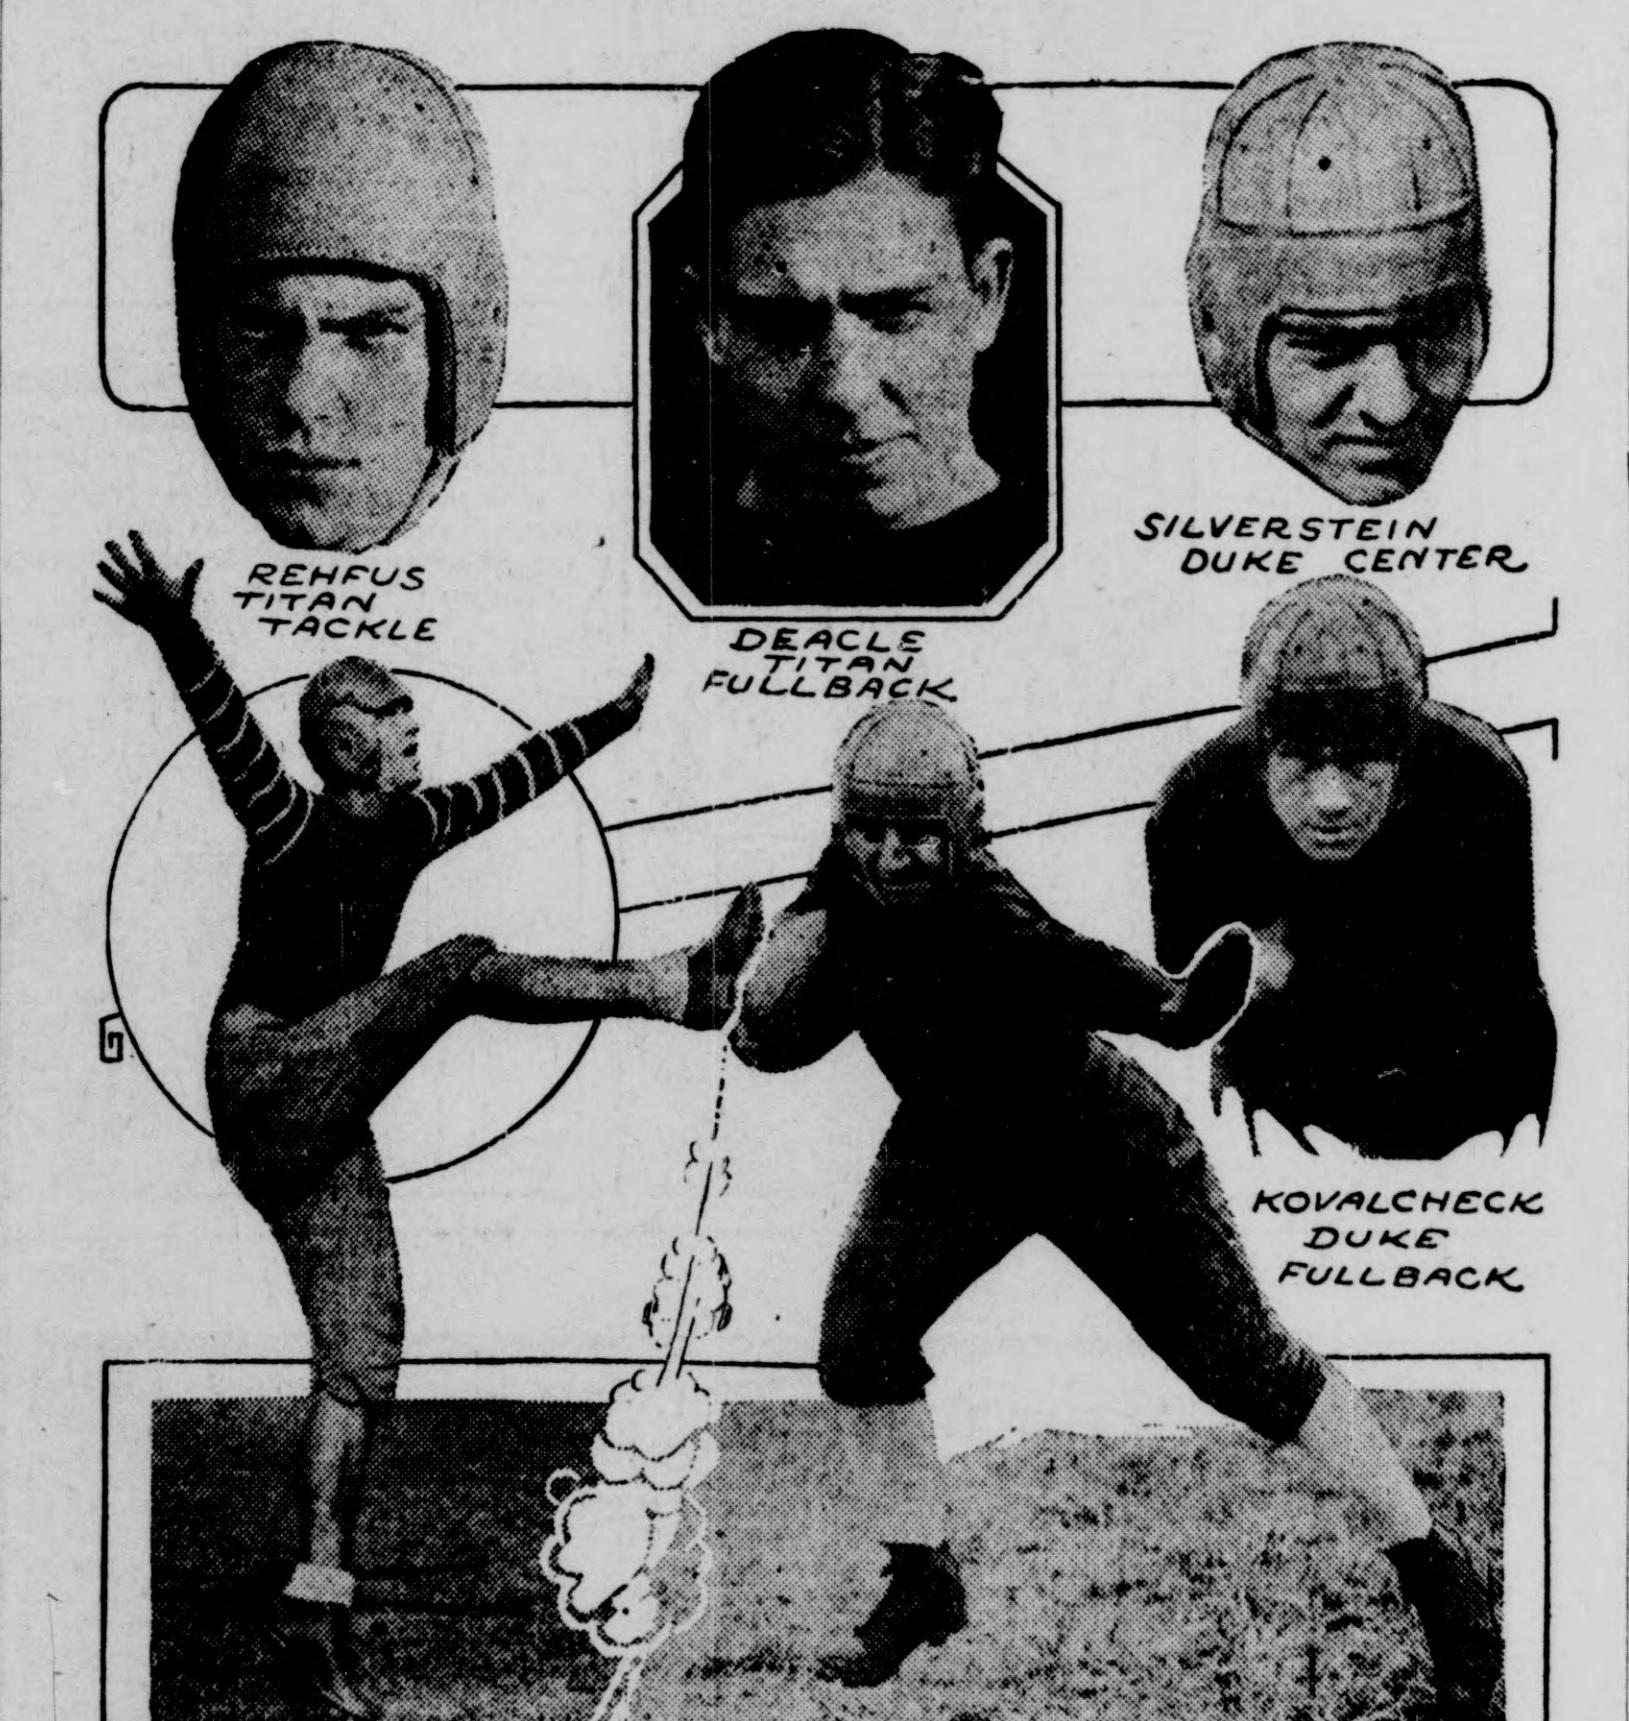

The summary: Geneva 0, Waynesburg 7. Seaburn L. E. Lufrano Stauffer L. T. Decker Howell L. G. R. Wiley Timmerio C. Harshman Wineman R. J. Boyd McKee R. T. Smith (C) Preece R. E. Ambrose Goss Q. B. Demoise Knapik L. H. Henley Weigle R. H. R. Porter Davis (C) F. B. Costello

Score by periods: 0 0 0 7-7. Touchdown—Demoise. Missed goal after touchdown—Decker (placement). Point awarded—Geneva (offside). Substitutions—Geneva: Pietsch for Weigle, Cooper for Stauffer, Weigle for Pietsch, Lewis for Preece, Stauffer for Cooper, Cooper for Stauffer, Snyder for Howell, Pietsch for Weigle, Ewing for Pietsch, Hefley for Ewing, Sole for Seaburn, Kimball for Knapik, Waynesburg: Owens for Costello, Patterson for Demoise.

Officials—Referee, John Egan, Duquesne; umpire, Dexter Very, Penn State; linesman, W. H. Friesell, Princeton. Time of quarters—15 minutes.

HANOVER, N. H., Nov. 12.—All players who participated in the Brown game having had a day of rest, Dartmouth was ready today to start work for the coming struggle with Cornell. Cornell plays will be used by the scrubs today in a dummy scrimmage.

Champ Meets Champ When Titans And Dukes Meet Friday Night

PITTSBURGH, Pa., Nov. 12.—When Duquesne University and Westminster College meet Friday night at Forbes Field in a "moonlight" game, it will be a battle between champions. The Dukes and the Titans were co-champions of the tri state conference last year by virtue of the fact that each won four and lost one in conference competition.

Coach Elmer Layden of the Dukes, former Notre Dame star fullback, has in "Buff" Donnelly, captain and halfback, and Kovalcheck, battering fullback, two backs who are worthy of the title "Layden's Riders". In Silverstein, mammoth center, the Dukes have one of the best linemen in the district.

Legion Corps Is Awarded Silver Cup In Parade

J. Wilbur Randolph Post
Bugle And Drum Corps
Makes Gallant Show-
ing In Large
Parade

Scores Of Local People Motor
To Valley For National
Armistice Day Cele-
bration

ELLWOOD CITY, Nov. 12.—The 35 members of the J. Wilbur Randolph Post Bugle and Drum Corps were a colorful part of the large Armistice Day parade which was staged in Beaver Falls Monday. They made such a brave showing, with their red and white uniforms, with their cockade hats, led by the snappy drum-major with his white uniform and tall fur headdress, that they were awarded the handsome silver trophy, a present of the Beaver Falls Colonel Thompson Post. They must keep the trophy for three years, to make it a permanent possession. The fact that they won the trophy is a distinct feather in their caps, in addition to the ones they already wore, as there were several handsome groups competing for it in the large parade.

In the afternoon the local bugle and drum corps participated in the program at the football game between Geneva and Waynesburg, marching in clever formations on the field between halves and before the contest opened. There were seven bands present, and the local group was by far the snappiest. One of the members bore the silver trophy aloft as they marched, and the color guard posed gracefully under one of the goal posts until the salutes were fired for the opening kickoff.

The great day closed with the military ball at the General Broadhead hotel, with several local people in attendance.

Al Singer Kayoes Johnny Sheppard

(International News Service)
NEW YORK, Nov. 12.—Members of the lightweight division had another worry today in the person of Al Singer, sensational young Bronxite, who last night made his debut into that class by knocking out Johnny Sheppard, rugged Boston veteran, at the St. Nicholas Arena.

Sheppard suffered his first knock-out in ten years of fighting in the seventh round when Referee Johnny Marto stopped the bout to save Sheppard from further punishment. Singer showed his best form in the fifth and sixth rounds when he had the Boston boy all but out.

Ned Tarleton, English featherweight, scored his third victory in American rings when he won the decision over Pinky Silverberg, Harlem.

Dr. J. M. Blackwood Gives Interesting Talk To Kiwanians

J. J. McLaughlin Is Appointed To
Fill Vacancy Caused By For-
mer Secretary Reaie

ELLWOOD CITY, Nov. 12.—Dr. J. M. Blackwood of New Castle, was the speaker at the regular weekly dinner-meeting of the Kiwanis club Monday night in the dining room of the Lutheran church. His subject was "Egypt and the Holy Lands" and having recently returned from Europe during which time he toured the various countries, he was eminently fitted to give a most interesting address. He illustrated his remarks with stereoscopic views which were photographed by him and his party on the recent tour.

J. J. McLaughlin, manager of the Community Loan bank, was appointed to fill the position of secretary, formerly held by Norman Reaie, who leaves Ellwood City November 15, to accept new duties in Pittsburgh.

THE NEW SERIES PACKARD EIGHTS

the finest cars the world affords

IN DEVELOPING the new series Standard, Custom and De Luxe Eights, Packard had one definite object—to make the cars in each line the most luxurious in the world at their prices.

Now that the new Packard Eights are on display the public agrees that nothing which could add to the comfort, convenience and enjoyment of owners has been overlooked. It is literally true that Packard designers and engineers can think of no way in which the new series cars could be made either better or more beautiful. And record-breaking sales reflect unusual public appreciation.

Design and colors are more distinguished—appointments, fittings and upholstery more luxurious than ever before. Performance—always an outstanding Packard luxury—has been enhanced by many mechanical improvements and refinements.

Advanced Engineering Features

The famous Packard straight-eight motor has been provided with new carburetion which effects greater flexibility with surprising quietness. The new Packard-

designed-and-built four-speed transmission permits easier, quieter gear shifting—increases riding comfort by maintaining a better relationship between motor speed and car momentum, and by eliminating power jerks.

Springs of new specifications combine with the advanced Packard Shock Absorbing System—with its mechanism to eliminate front wheel shimmy and steering wheel whip—to achieve new driving and riding ease. The "instant" chassis lubricating system now oils 43 points at the pull of a plunger.

Other refinements include improved-vision body pillars, adjustable sun visors, newly perfected shatter-proof glass, adjustable steering gear and driver's seat, dashboard lockers and many incidental conveniences.

Packard cars today, built in three complete lines and at three distinct ranges of price, cover the fine car field—and dominate it! There is a Packard Eight available at the lowest price for which a truly fine car can be sold. And there are Packard Eights on up to the most luxurious custom creations attainable anywhere.

Prices at the factory range from \$2375 to \$2775 for the Standard Eight; from \$3190 to \$3885 for the Custom Eight; and from \$4585 to \$5350 for the De Luxe Eight. Individual custom cars are also available to order up to \$10,000.

Why Not Own a Packard?
We cordially invite you to come in and see the new series Packard cars. We will gladly place the model of your choice in your hands for any sort of a demonstration drive you may desire.

We are confident that you will find the luxury of Packard transportation greater than you ever thought possible—and that you will be pleasantly surprised when we point out in actual figures how you can enjoy it at no greater expense than your present motor-ing involves.

Michaels Makes Good As Titan Quarterback

MICHAELS-QUARTER

NEW WILMINGTON, Pa., Nov. 12.—Harry Michaels, Turtle Creek substitute fullback on last year's Westminster grid team, has developed into an excellent field general for Coach "Dike" Beede this year. "Mike" has

started every game since the Fordham contest at the signal-calling berth. When Haidy, right half, is not in the game Michaels takes care of the punting. This together with his ability at carrying the ball and throwing forwards makes him an important triple threat back.
